

KHAVISO VUKEYA

SOFTWARE DEVELOPER TRAINEE

+27 67 993 3441 | khavisovukeya3@gmail.com | [linkedin.com/in/khavisov-vukeya](https://www.linkedin.com/in/khavisov-vukeya) | Portfolio: khavisov-vukeya-portfolio.vercel.app | Github: github.com/Khavisov01

PROFESSIONAL SUMMARY

Motivated Software Developer Trainee at CodeTribe Academy (mLab Southern Africa) and an Information Technology Graduate, with proven experience and hands-on training with building modern responsive and user-friendly web interfaces using React, TypeScript, JavaScript, HTML & CSS. Delivered front-end and back-end solutions, managing code via Git and GitHub. I thrive in collaborative environments and I am passionate about solving real world problems using technology to build scalable systems that have a real impact on communities and businesses.

EDUCATION

Vaal University of Technology

Diploma in Information Technology

Vanderbijlpark

2023 - 2025

CORE COMPETENCIES

Software Development: React.js, TypeScript, JavaScript, Node.js, HTML5, CSS

Cloud & Deployment: Vercel, Netlify, Render

Tools: Git, Github, VS Code, Postman, Figma

Soft Skills: Attention to detail, communication, documentation, team collaboration, problem-solving, quick learner, Advanced computer literacy

WORK EXPERIENCE

CodeTribe Academy (mLab Southern Africa)

Software Developer Trainee

Polokwane

Jul 2026 - Present

- Developed responsive interfaces using React, TypeScript, Responsive CSS, and modern UI/UX practices.
- Developed scalable REST APIs using Node.js
- Architected and deployed responsive, component-based web applications.
- Refactored codebase implementations to optimize app rendering speeds.
- Managed API integrations for real-time data updates and handled complex state logic
- Participated in weekly standups sessions, planning, and backlog grooming.
- Conducted peer reviews and contributed to team repositories using Git.

VUT Green Campus Initiative

Front-End Developer

Vanderbijlpark

Nov 2024 - Nov 2025

- Built, maintained, and enhance web-based application product using HTML, CSS, and JavaScript.
- Designed and implemented user-friendly control-system interfaces, improving usability for end users.
- Collaborated cross-functionally to gather requirements and integrate front-end solutions with industrial back-end systems.
- Conducted peer reviews and contributed to team repositories using Git and GitHub Desktop
- Tracked issues and coordinated code reviews across the project lifecycle using GitHub
- Participated in daily stand-ups and planning to ensure seamless website optimization.

PROFESSIONAL SUMMARY

IT graduate with a **Diploma in Information Technology** and hands-on experience across data analysis, BI reporting, and technical support. Skilled in **SQL**, **Python**, **Power BI**, and **Excel** for cleaning large datasets, building dashboards, and communicating findings to stakeholders. Equally comfortable diagnosing technical issues, documenting solutions, and guiding end users by combining analytical thinking with a practical, support-oriented mindset. Seeking a **junior Data Analyst**, **BI Analyst**, or **IT Support** role where I can deliver measurable impact.

EDUCATION

Vaal University of Technology	Vanderbijlpark
<i>Diploma in Information Technology</i>	2023 - 2025

CORE COMPETENCIES

Data Analysis & Visualisation: SQL, Python(Pandas, NumPy), Power BI, Excel
Data Cleaning & Preparation: MySQL, Excel (advanced), ETL basics
Reporting: KPI Design, dashboard development, data storytelling
IT Support: Hardware and software troubleshooting, user support, system maintenance, technical documentation
Web Development: HTML5, CSS3, JavaScript, Bootstrap, Git, Github
Soft Skills: Attention to detail, communication, documentation, team collaboration, problem-solving, quick learner, computer literacy

TECHNICAL EXPERIENCE

MustardCore — Earnalytics AI (Academic project)	Vanderbijlpark
<i>Data Analyst</i>	Jul 2025 - Nov 2025

- Collected, cleaned, and consolidated data from multiple sources (5 000+ records) to ensure accuracy and consistency for salary-distribution analysis.
- Performed exploratory data analysis using Excel and MySQL to identify compensation variances and pay-equity trends, contributing to a projected 15–20% reduction in cross-role salary inequality.
- Documented analytical methodology and insights in structured reports, translating technical results into actionable recommendations.
- Developed dashboards and KPI reports to communicate findings on employee compensations.
- Provided technical guidance and support to non-technical team members on data tools and workflows, demonstrating end-user support and training capability.

VUT Green Campus Initiative	Vanderbijlpark
<i>Front-End Developer</i>	Nov 2024 - Nov 2025

- Built, maintained, and enhance web-based application product using HTML, CSS, and JavaScript.
- Designed and implemented user-friendly control-system interfaces, improving usability for end users.
- Collaborated cross-functionally to gather requirements and integrate front-end solutions with industrial back-end systems.
- Managed version control via Git and GitHub, tracking issues and co-ordinating code reviews across the project lifecycle.
