Professional Summary

A graduate with a **Diploma in Information Technology** and hands-on experience in data analysis, BI reporting, and technical support. Skilled in **SQL, Python, Power BI, and Excel** for cleaning large datasets, building dashboards, and communicating findings to stakeholders. Equally comfortable diagnosing technical issues, documenting solutions, and guiding end users by combining analytical thinking with a practical, support-oriented mindset. Seeking a **junior Data Analyst, BI Analyst, or IT Support** role where I can deliver measurable impact.

Education

Vaal University of Technology	Vanderbijlpark
<i>Diploma in Information Technology</i>	2023 - 2025

Core Competencies

- Data Analysis & Visualisation:** SQL, Python(Pandas, NumPy), Power BI, Excel
- Data Cleaning & Preparation:** MySQL, Excel (advanced), ETL basics
- Reporting:** KPI Design, dashboard development, data storytelling
- IT Support:** Hardware and software troubleshooting, user support, system maintenance, technical documentation
- Web Development:** HTML5, CSS3, JavaScript, Bootstrap, Git, Github
- Soft Skills:** Attention to detail, communication, documentation, team collaboration, problem-solving, quick learner

Technical Experience

MustardCore — Earnalytics AI (Academic project)	Vanderbijlpark
<i>Data Analyst</i>	Jul 2025 - Nov 2025
- Collected, cleaned, and consolidated data from multiple sources (5 000+ records) to ensure accuracy and consistency for salary-distribution analysis. - Performed exploratory data analysis using Excel and MySQL to identify compensation variances and pay-equity trends, contributing to a projected 15–20% reduction in cross-role salary inequality. - Documented analytical methodology and insights in structured reports, translating technical results into actionable recommendations. - Developed dashboards and KPI reports to communicate findings on employee compensations. - Provided technical guidance and support to non-technical team members on data tools and workflows, demonstrating end-user support and training capability.	
VUT Green Campus Initiative	Vanderbijlpark
<i>Front-End Developer</i>	Nov 2024 - Nov 2025
- Built, maintained, and enhance web-based application product using HTML, CSS, and JavaScript. - Designed and implemented user-friendly control-system interfaces, improving usability for end users. - Collaborated cross-functionally to gather requirements and integrate front-end solutions with industrial back-end systems. - Managed version control via Git and GitHub, tracking issues and co-ordinating code reviews across the project lifecycle.
